Positronic Releases New Miniature Power/Signal Connector

Positronic's new Dragonfly Series is ideal for use in applications requiring a high reliability miniature connector, which offers signal and/or power contacts.

The Dragonfly offers contact current ratings of 20 amperes continuous for Size 16 contacts. Size 20 contacts are rated at 12 amperes when used with 18 awg wire. Dragonfly Size 16 contacts have been tested to 10,000 mating cycles. See catalog for details.

Dragonfly features include: Multiple package sizes with an integral quick latch locking system; crimp contact and PCB terminations; closed and open entry female contacts; and a variety of accessories.

Positronic is pleased to add the Dragonfly Series to our wide range of power and signal connector offerings. Price for a ten-position connector is \$5.09 per mated pair at 2500 pieces with delivery time of stock to six weeks.

For more information, contact Positronic Industries at 800-641-4054, or visit us at www.connectpositronic.com.
